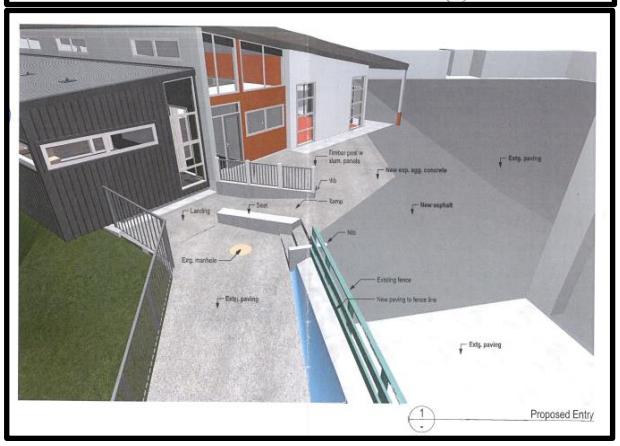
Kia ora koutou

As our new building (Kauri) gets closer to completion, it is time to work on its main entry at the top of the long path from Clark Street.

This artist's impression gives you an idea of the area involved and what is envisaged.

In order for this work to be carried out, construction zone fencing will be erected at the very top of the steps up from the staff carpark / drop off zone and along the southern side of the entry to the school's reception and administration area.



From Wednesday 5th September and for the next few weeks, we will turn right and head towards the junior school, go around the hall and up past the library to access Matai classrooms (Rooms 7-12), the school office, top court and EasySwim Swim School.

We apologise for any inconvenience. We're all getting very excited that it will not be long now until we can enjoy this new learning environment.

Nga mihi mahana
Louise Green
Principal
